Dear Ladies/Gentlemen

My interest in a Graphic Design/Multimedia position has prompted me to forward my resumé for your review and consideration.

I am presently looking for a career in which my experience and my work ethic can be applied to contributing to the success of your organization. I am hard working, goal oriented, and willing to go the extra mile to get the job done. My expertise in the design applications listed on my resumé have helped me to create many forms of professionally finished products for both school and for freelance clients.

I welcome the opportunity to meet with you and further discuss my qualifications and your needs.

Sincerely

Jason Flood
